1	TEXT	OPT	OPT
2	1. The first step in the process of creating a new product is to identify a market need.		
3	2. Once a market need has been identified, the next step is to develop a prototype.		
4	3. The prototype is then tested to determine if it meets the market need.		
5	4. If the prototype is successful, the next step is to create a business plan.		
6	5. The business plan is then used to secure funding for the new product.		
7	6. Once funding has been secured, the next step is to manufacture the product.		
8	7. The product is then distributed to the market.		
9	8. The final step in the process is to monitor the product's performance.		
10	9. If the product is successful, the next step is to develop a marketing strategy.		
11	10. The marketing strategy is then used to promote the product.		
12	11. The product is then sold to the market.		
13	12. The final step in the process is to evaluate the product's success.		
14	13. If the product is successful, the next step is to develop a new product.		
15	14. The new product is then developed and tested.		
16	15. The final step in the process is to launch the new product.		
17	16. The new product is then sold to the market.		
18	17. The final step in the process is to evaluate the new product's success.		
19	18. If the new product is successful, the next step is to develop a new product.		
20	19. The new product is then developed and tested.		
21	20. The final step in the process is to launch the new product.		
22	21. The new product is then sold to the market.		
23	22. The final step in the process is to evaluate the new product's success.		
24	23. If the new product is successful, the next step is to develop a new product.		
25	24. The new product is then developed and tested.		
26	25. The final step in the process is to launch the new product.		
27	26. The new product is then sold to the market.		
28	27. The final step in the process is to evaluate the new product's success.		
29	28. If the new product is successful, the next step is to develop a new product.		
30	29. The new product is then developed and tested.		
31	30. The final step in the process is to launch the new product.		
32	31. The new product is then sold to the market.		
33	32. The final step in the process is to evaluate the new product's success.		
34	33. If the new product is successful, the next step is to develop a new product.		
35	34. The new product is then developed and tested.		
36	35. The final step in the process is to launch the new product.		
37	36. The new product is then sold to the market.		
38	37. The final step in the process is to evaluate the new product's success.		
39	38. If the new product is successful, the next step is to develop a new product.		
40	39. The new product is then developed and tested.		
41	40. The final step in the process is to launch the new product.		
42	41. The new product is then sold to the market.		
43	42. The final step in the process is to evaluate the new product's success.		
44	43. If the new product is successful, the next step is to develop a new product.		
45	44. The new product is then developed and tested.
